Dear Ms. Mifflin:

Thank you for your letter of August 19, 2010 regarding the compliance status of the landfill gas migration control system at the Terrace Heights Landfill. The purpose of this letter is to communicate a determination of compliance as regards the requirements for New Source Review as specified in Washington Administrative Code (WAC) 173-400-110 and 173-400-113.

The Office of the Air Pollution Control Officer hereby determines the following:

1. The installation and operation of the landfill gas migration control system as it exists does not increase air emissions from the landfill unit;
2. An Order of Approval, as specified in WAC 173-400-110 and 173-400-113, is not required for the landfill gas migration control system, as it is currently installed and operated; and
3. The landfill gas migration control system, as it is currently installed and operated is in compliance with WAC 173-400-110 and 173-400-113.

If Yakima County Public Services plans to cause any modification or any alteration to the system, please contact this office well in advance to discuss applicability of regulation. Thank you for your patience in this matter. Please contact me if you have any questions.

Sincerely,

Gary W. Pruitt
Air Pollution Control Officer
